

ENVIRONMENTAL PROTECTION - AN INTEGRAL PART OF THE CONCEPT OF SUSTAINABLE DEVELOPMENT

Lecturer PhD. MĂDĂLINA ALBU¹

Abstract

Environmental management tends to be, and in our country becoming more integrated practice management to community involvement. Environmental management is a component of the overall management system which includes organizational structure, planning activities, responsibilities, practices, procedures, processes and resources for developing, implementing, achieving, reviewing and maintaining the environmental policy. With all the concerns in each country and internationally oriented environment and protecting natural resources, preservation of life, ecological diversity is widely appreciated that efforts are insufficient and unevenly distributed around the globe.
