

VEGETAL YIELD MANAGEMENT. CASE STUDY - ELABORATION OF SCENARIOS FOR FIELD EXPLOITATIONS IN SOUTH MUNTENIA DEVELOPMENT REGION

Professor PhD. MARIANA BRAN¹, Associate Professor PhD. LIVIA VIDU²

Abstract

Performing scenarios into field exploitations bases on certain given conditions and has in view the assessment, by extrapolation, of certain context for the tested phenomena. The aims followed by the design of some viable crop structures are targeted to solicitate all factors which intervene on process, to obtain a certain level of economical performance.
